Dear Schäfer,

I was very glad to have your letter last week. I should be very loth to leave this place where I am most comfortable and have a really good clinic. One consideration more than any other would influence me. I do not - nor does Mrs. Osler - wish Revere to be brought up an American, so that we are planning, if matters turn out all right, to retire to England in eight or ten years. I see by ~~the papers that Grainger Stewart is dead. From the account I had of his illness last Summer I was not surprised. My prospects would not~~ I should say be very bright, but I should be glad to hear of the outlook.

Love to the children.

Yours sincerely,

WM OSLER.
